

Abstract Art – Matisse and Picasso

This week's lesson we will be combining what we've learned from Matisse and Picasso. Remember Matisse and Picasso used different shapes, colors, and marks to try and make their paintings and drawings different than what it really is.

Lesson 1:

Sit outside, take a walk, look out your window and draw what you see/saw. You can use an object like a tree, house, mesas, or you can draw everything you see.

Use a range of color, shapes, textures, and lines.

- Use a piece of paper
- Use the whole sheet
- If you need to, outline your pencil with a black marker
